

The Telescope

My dad bought me a telescope,
To help me see so far,
My dad bought me a telescope,
I want to see the stars.

I look into the telescope,
I see the distant lights,
I look into telescope,
Oh wow, the moon's so bright!

I gaze into the telescope,
I see the red of Mars,
I stare into the telescope,
Until staying awake is hard.

So, I put down the telescope,
I can't watch space or the sky,
But I can see my smiling dad,
And the twinkle in his eye!

VOCABULARY FOCUS

1. Find two words that mean the same as look.
2. What word tells you that the 'lights' are far away?
3. What phrase shows the child is sleepy?
4. What word means the same as 'see'?

Watch Twinkle Put
