

This week will be Easter, but what is the true meaning of Easter?

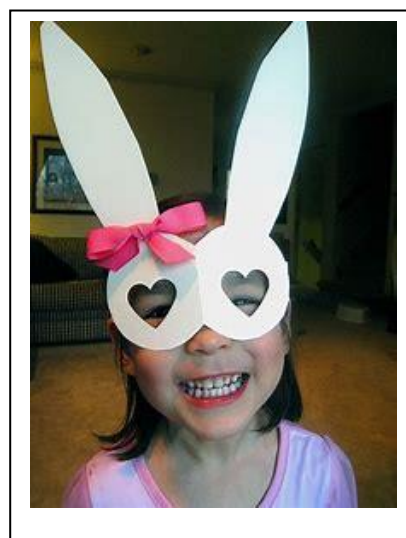

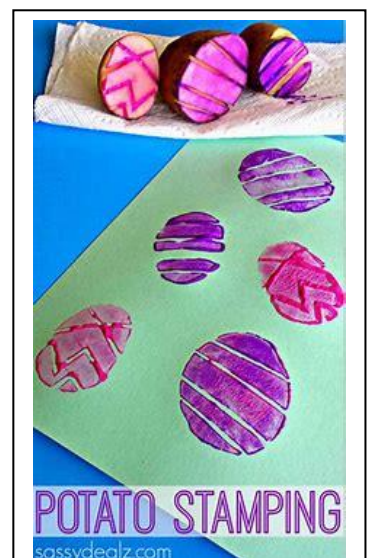

Watch the youtube clip of Easter

<https://www.youtube.com/watch?v=Wnbo2AmS3OI>

Christians believe that at Easter time Jesus died on the cross but then rose again on Easter Sunday and began his new life in heaven.

Easter is the time of new life. As you are looking for plants and trees in your Science work, see how many new flowers and plants are growing into new life.

Easter is also the time for Easter Eggs and being crafty. Look at the pictures below, can you make an Easter card with coloured eggs and bunnies? Decorate an egg or make a bonnet for Easter.

Don't forget to take a picture of your creations on put it onto the Dojo App!
