Lesson 4

Can you solve these challenge questions below?

- ❖ Remember to underline the important information and solve each problem one step at a time!

Here are four fraction cards.

$$\frac{3}{4}$$

$$\frac{5}{8}$$

$$\frac{6}{12}$$

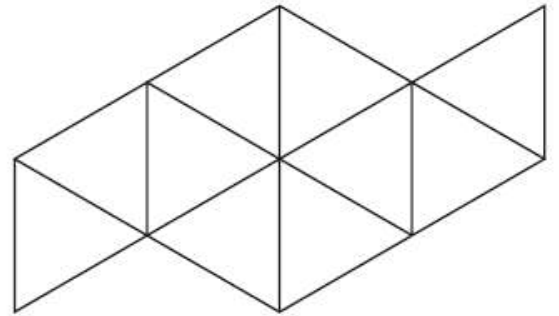

$$\frac{7}{16}$$

Use any **three** of the cards to make this correct.

$$\square < \square < \square$$

Shade  $\frac{1}{5}$  of this shape.

Shade **more** triangles on this shape so that is  $\frac{1}{3}$  shaded
