

## Art - 12.2.21

### L.O. I can make a Greek leaf crown.

#### You will need:

- A paper plate (or a large circle of paper)
- Small pieces of paper cut into leaf shapes
- Glue
- Green colouring pencil / felt-tip.

#### How to make your leaf crown:

1. Cut a small section out of the edge of your plate. Also cut out the centre of your plate, so you end up with an arch. 
2. Colour in your leaf shapes with a green crayon.
3. Start sticking your leaves onto the paper plate. Make sure that they are overlapping and we can't see the plate underneath.
4. Take a picture of your crown and upload it onto Dojo so we can see how amazing they are!
