

### **CHORUS 1:**

[The Water Cycle Song - YouTube](#)

Heat turns water in vapour  
A gas that rises through the air  
And cold makes vapour condense to liquid  
And fall back down everywhere  
(Repeat x2)

### **VERSE 1:**

We are water molecules  
And we're on an epic journey all around  
It's called the Water Cycle  
From the sea...to the air...to the ground

### **CHORUS 2:**

Evaporation - water turns to vapour  
Condensation - vapour turns to drops  
Precipitation - drops fall down  
And they collect all over the ground  
(Repeat x2)

### **VERSE 3:**

We can fall as many things  
Like rain...or sleet...or snow  
And we collect almost anywhere  
Wherever water freezes or flows

### **VERSE 4:**

You can call it the Hydrologic Cycle too  
And they even cycle in and out of  
Animals, plants and you!  
EW!

### **CHORUS 1**

**CHORUS 2** (Repeat x2)
