

LESSON 3 - Expanded noun phrases

Remember, an expanded noun phrase has 3 parts: **determiner**, **adjective(s)** and a **noun**. We looked at this last week.

Can you write 2 expanded noun phrases for each of the images below? I have given you some examples to start you off:

her smooth, shiny teeth

gastric juices

the warm, stinging gastric juices

bile

appendix

Challenge: Can you extend ONE of your expanded noun phrases by adding some extra information on the end of it? E.g. her smooth, shiny teeth, covered in slippery saliva
