

## Home Science Activity - 4.5.20

### Plants

I'm sure you will have noticed what is happening to the plants and trees and how they are growing and changing. Your challenge this week is to go on a plant hunt!

Can you find:

- A plant with leaves that aren't green?
- A plant growing somewhere unusual, for example in a crack in the pavement or the walls of a house?
- A plant that is taller than you?
- A plant with flowers that are more than one colour?
- A plant with spikey leaves?
- A plant that smells nice?
- A plant that bees like?

You could record your findings with photos, drawings or writing.

Happy hunting!
