Lesson 4

Can you solve these challenge questions below?

- ❖ Remember to underline the important information and solve each problem one step at a time!

This diagram shows a shaded rectangle surrounded by squares.

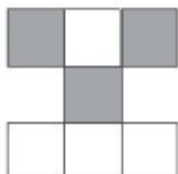

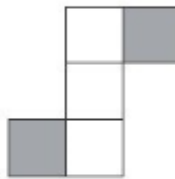

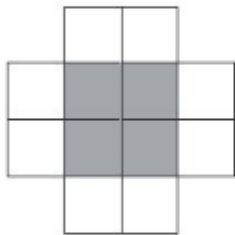

What fraction of the diagram is shaded?

These diagrams are all made of squares.

Look at each diagram.

Put a tick (✓) if exactly $\frac{1}{3}$ of it is shaded. Put a cross (X) if it is not.

Shade $\frac{1}{5}$ of this shape.
