

Computing - Lesson 5

L.O. I can use information in a database to create a simple chart.

1. Here is a group of children:

Could you record their eye colours in the chart below?

Eye colour	Number of children
Green	
Blue	
Brown	

2. How else could you organise these children into a chart? (gender / hair colour etc) Draw your new chart below:

## Computing - Lesson 5

L.O. I can use information in a database to create a simple chart.

3. Could you write some questions from the charts you have made?

For example: 'How many more children have blue eyes than green?'
