

Science - The Digestive System Lesson 5

L.O: I know how a food chain works.

The Food Chain Of An Owl

Key Words:

Producer -
Uses energy from the sun to make its own food.

Consumer -
Animals that eat food

Predator -
Hunts and eats other animals.

Prey -
Is hunted and eaten by other animals.

Could you think of an example of :

A producer

A consumer

A predator

Prey

A food chain uses arrows to show how energy transfers.

...is eaten by

Can you use what you have learned to make some food chains? Cut out the pictures in each group and organise them in order using arrows to show the flow of energy.

A)

B)

C)

D)
