

French Lesson Plan.

First go through the Powerpoint and review the jungle animals from last week (the first 5 animals). Then go through and learn the rest of the jungle animals in French. Remember to click on the animal for the pronunciation, click off the animal for the written word in French then finally click outside the animal again for the next slide. Make sure you have the Powerpoint in Slideshow in order to hear the sound.

Next, cut out and match the animals with the correct spelling in French.

Finally, there is a word search to complete.

Remember dojos for children who take photos of their work and upload them to the dojo message for portfolio sections so I can see just how hard and well you are working.
